Calculating Rental Rates for MPDUs

Introduction

The allowable rents that may be charged for MPDUs are set at the time the Department of Housing and Community Affairs (DHCA) approves the Rental Offering Agreement¹. Rental rates are computed using the maximum income limits for the MPDU program in effect at the time the MPDUs are offered for rent. The maximum income for the MPDU rental program is set at 65 percent (for garden apartments) or 70 percent (for high rises) of the median income for the Washington, DC Primary Metropolitan Statistical Area (PMSA). If an apartment development is financed through a Federal or state affordable housing program (such as the Federal Low Income Housing Tax Credit), then the requirements of that program supercede the MPDU regulations.

Methodology

The method for computing the allowable monthly rents for garden apartment MPDUs, before utilities, is described below (establishing rents for high rise apartments is discussed later). The income for the rent calculation is based on one and one half (1½) people per bedroom.

- The rent for an efficiency unit is based on the income for a one-person household.
- The rent for a one-bedroom unit is based on the mid-point between the income for a one-person household and a two-person household (e.g. 1.5 people).
- The rent for a one bedroom plus den unit is based on the income for a two-person household.
- The rent for a two-bedroom unit is based on the income for a three-person household.
- The rent for a two bedroom plus den unit or a two-bedroom unit with a second bath is based on the midpoint between the income for a three-person household and a four-person household (e.g. 3.5 people).
- The rent for a three-bedroom unit is based on the mid-point between the income for a four-person household and a five-person household (e.g. 4.5 people).

Based on the appropriate household size and corresponding maximum income, the

¹ see Executive Regulation 13-05AM "Requirements and Procedures for the Moderately Priced Dwelling Unit Program", Section 6.1 "Offering MPDUs for Sale or Rent"

income for each unit size is divided by 12, multiplied by twenty-five percent (25%), and then rounded up to the next highest whole number which is evenly divisible by five. This determines the monthly MPDU rent based on bedroom size, before utilities.

EXAMPLE: *Calculating the rent for a 1-bedroom garden apartment (1.5-person household):*

Annual Income for a 1-person household = \$50,000

Annual Income for a 2-person household = \$57,500

Mid-point = \$53,750

$\$53,750 \div 12 \text{ months} = \$4,479.17 \text{ per month} \times .25 = \$1,119.79 = \underline{\$1,120}$ (rounded up)

Utilities and Other Service Charges

In addition to the rental rates established for MPDUs, consideration can be given to those utilities and services paid by the tenant versus those utilities and services paid by the owner. Utility charges and service fees that are paid by the owner may be added to the MPDU rental rate calculated above to establish the MPDU rent. When the applicant pays all utilities, the income for each unit size is multiplied by thirty percent (30%) then divided by 12 and rounded to the next highest whole number which is evenly divided by five (5) to establish the rent for the unit. Alternatively, DHCA may, at its discretion, use “Allowances for Tenant-Furnished Utilities and Other Services” for the Washington, DC PMSA, as determined annually by the U.S. Department of Housing and Urban Development (HUD) to calculate these charges. Any request by a landlord for a variance from these rates will only be considered by DHCA upon receipt of a certified report from a registered engineer or by the appropriate utility company. After the first year of operation, utility charges may be based on the actual, average cost of the utility expenses for the previous 12 months.

Special Exceptions for High Rise and Senior Apartment Complexes

The Director may set different rent limits for units in high rise buildings if the Director determines that there is no other reasonable means available to finance the building of all required MPDUs at a specific development. Rents in high rise apartment buildings may be calculated using an income set at 70 percent of the median income for the Washington, DC PMSA (as opposed to 65 percent of the median, as is used for garden apartment developments).

EXAMPLE: *Calculating the rent for a 1-bedroom high rise apartment (1.5-person household):*

Annual Income for a 1-person household = \$54,000

Annual Income for a 2-person household = \$62,000

Mid-point = \$58,000

$\$58,000 \div 12 \text{ months} = \$4,833.33 \text{ per month} \times .25 = \$1,208.33 = \underline{\$1,210}$ (rounded up)

maximum rent for a 1-bedroom apartment, before utilities

The Director may also set different rent limits for rental units in age-restricted

buildings if the Director determines that to do so will contribute to the long term availability and affordability of MPDUs for eligible certificate holders, and other households with moderate incomes. The Director may exercise this option upon the conclusion of the priority marketing period if there are MPDUs that can not be rented to eligible certificate holders at the approved MPDU rents. More information on this special situation may be obtained from DHCA staff.

Annual Rent Increases

The MPDU rent may only be adjusted once a year by the Director in accordance with the County Executive's voluntary rent guideline. Apartment complexes are notified, usually in February, of the allowable rent increase for the upcoming year; the rent adjustments are effective as of the following June 1 to provide for the required 90-day notice of rent increase. For occupied units, the adjustment may only be applied upon lease renewal.

Other Special Considerations

Laundry washer and dryer equipment must be provided in each MPDU unit unless this equipment is not provided in the market rate units. No increase in rent is allowed for laundry washer and dryer equipment unless the market rate units are separately charged and the increase is limited to the same fee that the market rate apartments are charged.

Non-refundable amenities fees may not be charged to MPDU tenants. The owner may also not charge a fee for non-structured, automobile parking to MPDU tenants. Structured parking, garage or other enclosed spaces may be offered as an option to the MPDU occupants at the monthly rate normally charged by the applicant.

MPDU Maximum Rents*
Garden Apartment

Unit Size	0 BR	1 BR	1 BR + Den	2 BR	2 BR + Den or +2nd Bath	3 BR
Household Size	1	1.5	2	3	3.5	4.5+
